## WHO WE ARE

EmiQual Foods and technologies was founded by young third generation entrepreneurs with great enthusiasm. The company management has always had a strictly technical education, so from the beginning it was natural to direct every effort in developing new high-quality machines, instead of marketing existing products.

We are involved in manufacturing of food processing machines specially pasta, macaroni, vermicelli, spaghetti. We are continuously working in new technology and innovations.

## MISSION AND VISION

Our goal is to be increasingly competitive in the market, creating new machines, new formats with high efficiency, newest technology and low production & maintenance cost with keeping prices under control, thanks to a production that is totally internal to the company. This allows us to optimize times, materials and resources.

## QUALITY AND RELIABILITY

We are a team consisting of good engineers and professionals who are working for technology upgrade and quality improvement on a regular basis. We offer the latest technology with the best designs in order to guarantee the highest quality standards, our machines go through the following controls:

- Our professionals ensure about raw material selection and quality check on every parameter to deliver the best and quality machines.
- Selection and control of the commercial components.
- Careful control of production in each stage of assembly.
- Thorough quality check on the finished product.

## WHY US

- 1 year warranty and lifetime assistance.
- Export quality product guarantee.
- Machine manual with maintenance & after sales service.
- Some Highlights are : **Durability** : Highly durable best quality raw material used. **Design** : Excellent design which makes machines different and attractive. **Output** : Machines provide satisfactory and **continuous output**.
- QC reports prepared for every component to ensure best quality.
- Our machines and technology meet all global standards so we are able to attract a huge client base within and outside the country.

## PRODUCTS/INDUSTRIAL MACHINES

### PASTA / MACARONI / VERMICELLI PRODUCTION LINES

Semi-automatic Pasta, Macaroni, Vermicelli Manufacturing Machines / Production Lines(50 Kg/hr And 100kg/hr).

#### Semi-automatic Pasta Machine

- Application Use Pasta and Macaroni Line
- Machine Type Semi- Automatic/manual
- Capacity 50kg/hr.-10-12 Kw
- Power Consumption 100 Kg /hr-12-15kw
- Power Supply 415- 3 Phase
- Brand **EMIQUAL**
- Moc SS 304
- List of Machines :- **EXTRUDER | DRY MATERIAL HOPPER | SCREW CONVEYOR | CHILLAR,VACCUME PUMP, VIBRATOR | MOISTOR MIXTURE, DIES.**

Fully Automatic Pasta, Macaroni, Vermicelli Manufacturing Machines (100-350 kg/hr).

#### Fully Automatic Pasta Machine

- Application Use Pasta and Macaroni Line
- Machine Type Full Automatic
- Capacity 100 Kg/hr - 14 Kw
- Power Consumption 150 Kg/hr -18 Kw
- Power Supply 250 Kg/hr-18 Kw
- Power Consumption 350 Kg/hr-22kw
- Power Supply 415- 3 Phase
- Brand **EMIQUAL**
- Moc SS 304
- List of Machines :- **EXTRUDER | DRY MATERIAL HOPPER | SCREW CONVEYOR | CHILLAR,VACCUME PUMP, VIBRATOR | MOISTOR MIXTURE, DIES**

Fully Automatic Pasta, Macaroni, Vermicelli Manufacturing Machines (500 to 2000 Kg/hr).

#### Fully Automatic High Capacity Pasta Machine

- Application Use For Pasta Making
- Machine Type Full Automatic
- Capacity 500 Kg Hr To 2000 Kg /hr
- Power Consumption 40 Kw To 100 Kw
- Power Supply 415- 3 Phase
- Brand **EMIQUAL**
- Moc SS 304
- List of Machines :- **EXTRUDER | DRY MATERIAL HOPPER | SCREW CONVEYOR | CHILLAR,VACCUME PUMP, VIBRATOR | MOISTOR MIXTURE, DIES**

## PRODUCTS/INDUSTRIAL MACHINES

### Fully Automatic Long Cut Vermicelli / Pasta Noodles Line

- Application Use Long Cut Vermicelli Making
- Machine Type Full Automatic
- Capacity 100 Kg To 500 Kg /hr
- Power Consumption 10 Kw To 50 Kw
- Power Supply 415- 3 phase
- Brand **EMIQUAL**
- Moc SS 304
- List of Machines :- **EXTRUDER | DRY MATERIAL HOPPER | SCREW CONVEYOR | CHILLAR,VACCUME PUMP, VIBRATOR | MOISTOR MIXTURE, DIES.**

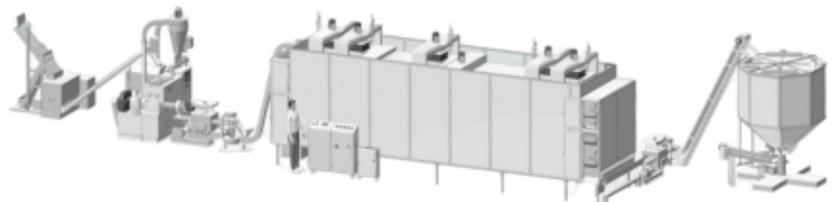

### Fully Automatic Spaghetti Production Line

- Application Use Spehegetti Making Machine
- Machine Type Full Automatic
- Capacity 500 KG /HE
- Power Consumption 10 KW TO 50 KW
- Power Supply 415- 3 phase
- Brand **EMIQUAL**
- Moc SS 304
- List of Machines :- **EXTRUDER | DRY MATERIAL HOPPER | SCREW CONVEYOR | CHILLAR,VACCUME PUMP, VIBRATOR | MOISTOR MIXTURE, DIES**

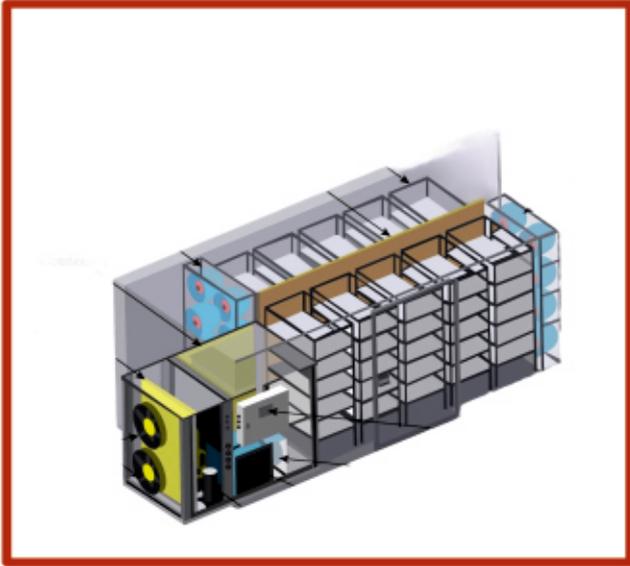

## DRYERS

### Continuous Dryers

- Covering Puff Panels
- Powe Consumption 5.5 Kw
- Capacity 500 Kg To 2000 Kgs

## PRODUCTS/INDUSTRIAL MACHINES

### STATIC DRYERS

- Structure
    - Option-1
    - Option-2
  - Air Rotation
  - Heat Power
  - Special Element
  - Power
- |                                  |
|----------------------------------|
| Room Dryer - Bricks              |
| Puff Panel Dryer - Puff Panel GI |
| Axial Fan                        |
| 1 Kw                             |
| Heat Pump                        |
| 5.5- 6 Kw- Incl Fans             |

### HEAT PUMP

### CHILLAR

### CONVEYORS

**ROASTER**

**Manual Roaster**

Source of Energy - Electricity and LPG

**Rotary Roaster**

Source of Energy - only Electricity

**2 Head Packing Machine**

**POUCH PACKING MACHINE**

**4 Head Packing Machine**

Automatic Packing Machine  
50 Gm to 1 Kg  
20-30 Pouch Per Min

Automatic Packing Machine  
50 Gm to 1 Kg  
40-50 Pouch Per Min

**Band Sealer**

**Thermal Inkjet Printer**

Usage - Labelling

**Bag Filling Machine**

5 KG TO 25 KG

**Handy Printer**

Usage - Labelling

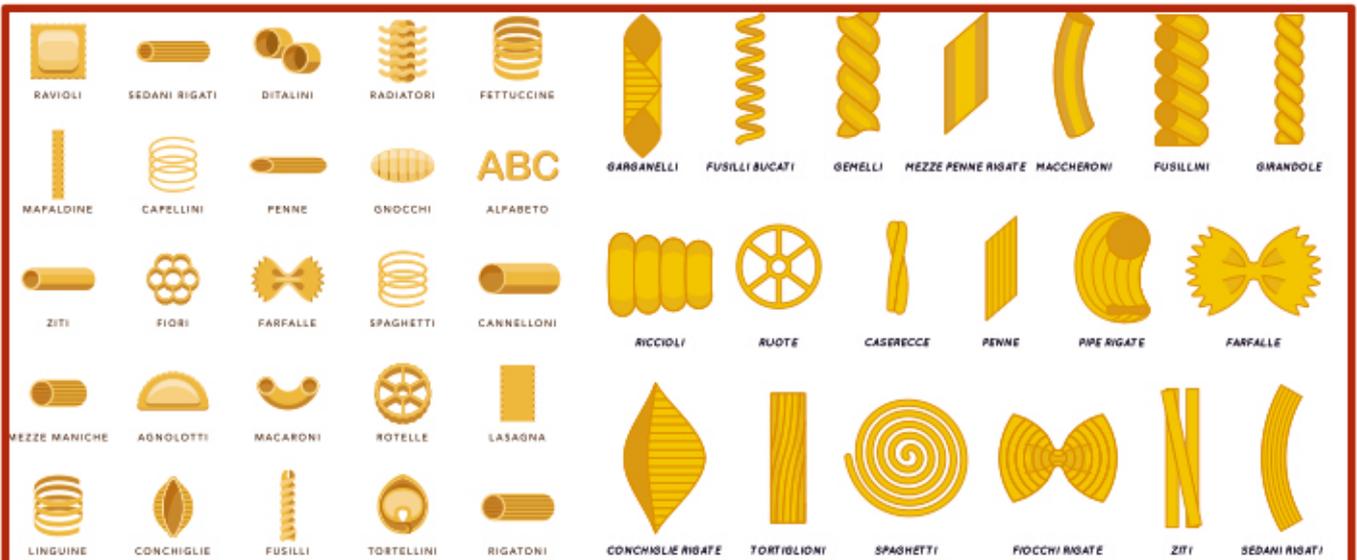

**PRODUCTS/INDUSTRIAL MACHINES**
**DIES AND SPARES**

**Dies**

**Gear Box**

**Screw**

**Inserts**

**Oil Vacuum Pump**
**PASTA SHAPES**
